

WOOL UPPERS

Stylish And Stretchy

It's incredibly soft and itch-free on the inside, strong on the outside, and ethically sourced to high standards for an outstanding fit that treads light on our planet.

CARBON NEUTRAL

Sweet On The Planet

Hand-woven and delightfully soft, our fabric was designed and created in-house, and is made with the world's first carbon neutral green EVA.

ORGANIC MATERIALS

Live Life In Comfort

We layered castor bean oil, which emits less carbon than petroleum-based foam, and merino cotton for a cushiony, moisture wicking, and odor reducing material.

RECYCLED FABRIC

Reuse And Restyle

Selected materials are created with 100% post-consumer recycled polyester. One old plastic bottle becomes part of a stylish new jacket.

Thread Softly

Our clothing and footwear is carbon neutral thanks to sustainable practices, like using natural materials and buying offsets. Our footprint starts at 9.7 kg CO₂e. We strive everyday to minimize the environmental impact of everything we create.
